## **1. Preamble**

The Superior University has destined itself to become the leading university of the country. Therefore, efforts are being made in all directions to promote high quality practices through community of the university. As part of the collective efforts so exerted, this policy has been sets forth minimization of waste targeting a useful and ethical usage of plastic, solid, water and recycled products. The basis of this policy has been set on minimization of waste policy by the Government of Pakistan as a baseline. It is expected that with the application and implementation of this policy, staff will be able to understand and contribute to reducing the waste of the University.

## **2. Scope of Policy**

This policy strives to ensure the minimization of waste in a sustainable and responsible manner, that the individuals employed in their production are safe and treated fairly, and that environmental and social impacts are measured during the disposal process. The minimization of waste by the Superior University and its relevant entities falls under the scope of this policy. This policy prescribes the SOPs for minimizing waste for all the stakeholders of the University such as staff, students, and outsourced vendors.

## **3. Definitions**

Unless anything repugnant in the subject or context, the meanings assigned to the terms shall have the meanings given hereunder;

- i. **“University”** means the Superior University, Lahore constituted under the Superior University, Lahore Act, 2004.
- ii. **“Rector”** means the Rector of the Superior University.
- iii. **“Registrar”** means the Registrar of the Superior University.
- iv. **“Act”** means, the Superior University Act, 2004.

## **4. Applicability**

The policy is designed to deal with minimizing waste for compliance with environmental sustainability and come into force at once with effect from the date of notification by the Registrar of the University.

## **5. Guidelines for reducing the waste**

- 5.1.**The procurement office shall prioritize locally sourced and seasonal products, to support sustaining the local economy and reduce environmental impacts.
- 5.2.** The procurement office shall comply with all applicable, current environmental legislation and good practice norms, and be prepared to fulfill imminent statutory obligations whenever possible.
- 5.3.** The procurement office will reduce the impact of activities on the environment by selecting and choosing appropriate items and packaging.
- 5.4.**The university shall assess its environmental practices, taking into consideration if practicable, before consulting a supplier.
- 5.5.** The university will engage farmers that have committed themselves to practicing excellent environmental stewardship.
- 5.6.** The university will incorporate sustainability into supplier contracts with the help of the procurement team, making sure that vendors adhere to their carbon emission and packaging commitments.
- 5.7.** The university will promote ethical and fair-trade commerce across the supply chain.
- 5.8.** The university shall make sure that all suppliers can prove their climate action through the application of policy and, at the very least, adhere to all applicable legal obligations.
- 5.9.**The university shall designate an individual who is responsible for overseeing the correct storage, labeling, and inspection of this Accumulation Area and who performs weekly inspections of this area, recording and keeping the findings of the inspection.
- 5.10.** The university shall assure that all laboratory staff members who handle chemical waste have acquired the necessary training and that the documents of that training are documented.
- 5.11.** The university will develop, perform, and document a yearly assessment of all hazardous materials to ensure sure those whose use has reached the limit of what is possible and safe.
- 5.12.** The university shall include waste management protocols in all workflows, including instructional laboratory guides.
- 5.13.** The university shall conduct audits of the waste management practices outlined in this policy to make sure they are being followed and to make the required adjustments.

## **6. Roles & Responsibilities of various Functionaries**

### **6.1.Registrar Office**

It shall be responsible for the following:

- a) providing any kind of support in disposal of water;
- b) complying with the sourcing with environmental sustainability goals.

### **6.2.Dean/HOD**

He shall be responsible for the following:

- a) keeping track of the accumulation zones and those in charge of supervision;
- b) upholding copies of training documents;
- c) conducting audits of waste management practices within the facilities under their control in accordance with this policy to verify compliance and put the required modifications into place;
- d) appoint an individual to comply with policy guidelines;

### **6.3. Procurement Team**

He shall be responsible for making sure of the compliance of all sourcing with environmental sustainability goals.

## **7. Conflict Resolution**

**7.1.**In case of any conflict upon under/process, the concerned shall only use case studies/precedence set by the university and refrain to act as a judge of the conflict.

**7.2.**In case of any misconduct the concerned shall be held accountable and will be dealt with under the integrity policy.

## **8. Repeal**

The previous version of this policy shall stand repealed upon approval of this policy unless otherwise mentioned herein or any ensuing conjunction or correlation explicitly mentioned. However, the procedures implemented and actions undertaken in accordance with the previous version of the policy leading to conclusive outputs or approvals stand validated with the provision that any revision thereto shall be undertaken in the light of this policy upon approval and shall carry the same validation as per the approved policy thereby quelling any objections raised with respect to the approval of the same.
